

WATERSHIELD™ 5600

Water Conditioning System

For Soft **Refined**
Purer Water.

The Benefits of Soft Water:

IN THE KITCHEN

- Your dishes will sparkle
- Glassware and flatware will dry free of spots and streaks
- Clean-up on counter tops and sinks will be easier, and need less detergent

IN THE BATHROOM

- Showers will be with silky smooth, clear rinsing water
- Soaps and shampoos will provide great lathers
- Conditioned water revives hair color and leaves hair soft
- Skin will feel smoother and refreshed after washing
- Fixtures and tile will have reduced soap scum and residue buildup

AROUND THE HOUSE

- Laundry will have brighter colors
- Clothes will be cleaner, softer, and last longer
- Adds years to the life of your water heater, and can maintain its efficiency by up to 30% by reducing scale buildup
- Adds service life to coffee makers, steam irons, faucets and other water using appliances
- Saves dramatically on the cost of cleaning supplies and detergents

WATERSHIELD™ 5600
Water Conditioning System

WATERSHIELD™

5600 Water Conditioning System

Your Local Water Treatment Professional:

WATERSHIELD 5600

- The Watershield 5600 water softener utilizes a simple mechanical design that is reliable and easy to understand. It uses one of the most popular softening valves in the world.
- The Watershield 5600 can be installed inside or out*.
- A double backwash feature offers the optimum in regeneration, cleaning ability, and efficiency.
