- **No Electricity or Drain Needed**
- **Cleans Previous Scale in Plumbing**
- **Keeps Beneficial Minerals in Your Drinking Water**
- **Low Maintenance, No Moving Parts**

NSF/ANSI 61
TESTED & CERTIFIED

HOW IT WORKS: *The Watershield© NaturWise system provides quality drinking water to the home and protection from scale formation throughout the plumbing system. The Watershield NaturWise system can be installed at the point of entry to treat your entire home for both hot and cold water.*

The Watershield© NaturWise system prevents scale by transforming the normal dissolved hardness minerals into undissolved crystal micro-particles. These crystals stay suspended in the water and have a greatly reduced ability to react and attach to surfaces like dissolved hardness does. Therefore, the problem of internal buildup of scale in pipes, water heaters, and spotting on fixtures, silverware and glass is greatly reduced.

Low phosphate free cleaning products are recommended to achieve optimum results. Modern surfactant or detergent based liquid soaps are preferred over previously produced caustic solid soaps.

Great Delicious, Sparkling Clear Drinking Water Throughout the Whole House

- *Clear, Great Tasting Water*
- *Pristine Clean Rinses for Fruits and Veggies*
- *Quality Water for Coffee and Tea*
- *Great for Your Pets and Aquariums*

Convenience

- *Fresh, clean, great tasting water at your tap*
- *No deliveries to schedule*
- *No trips to the store*

Economic and Green Benefits

- *Pennies a gallon versus dollars a gallon for bottled water*
- *No bottles, no waste with NaturWise. 2.5 million water bottles are disposed of every hour in the U.S. Only 1 in 6 are recycled*
